PROFESSIONAL SUMMARY

Software Systems student with a strong engineering foundation in full-stack development and AI-powered application design. Experienced in building intelligent, end-to-end products — from adaptive assessment platforms to real-time civic-tech systems — demonstrated through hackathons, internships, and hands-on projects.

EDUCATION

M.Sc. Software Systems (5-Year Integrated) *2024 – 2029*
Coimbatore Institute of Technology, Coimbatore | CGPA: 8.88 / 10
SBOA Matric. Hr. Sec. School, Coimbatore — Class XII: 83% (2022) | Class X: 85% (2020)

INTERNSHIP EXPERIENCE

Online Research Intern — Funobotz Paper Robotics Pvt. Ltd. *May 2026 – Jun 2026*
via Praya Labs | Remote | Cert. No: INPLNE026

- Contributed to the design, development, and testing of the Funobotz Chatbot System, applying AI technologies to its conversational logic.
- Collaborated with the project team across the development lifecycle — from requirement analysis to implementation and testing.

TECHNICAL SKILLS

Languages: C, C++, Python, Java, JavaScript, TypeScript
Frontend: HTML5, CSS3, React.js, Next.js
Backend: Flask, PHP, REST APIs
Databases: MySQL, SQL, Supabase
Tools: Git, GitHub, Streamlit, VS Code

PROJECTS

SkillSync — AI-Powered Skill Assessment & Hackathon Platform *2026*
Next.js 14, TypeScript, Zustand, Supabase, GPT-4o

- Built a full-stack AI skill-assessment platform with adaptive MCQs, webcam proctoring, live coding, and automated evaluation.
- Integrated GPT-4o, Supabase Auth, Piston code execution, and Zustand state management for end-to-end assessment and hackathon workflows.

LifeLink — Smart Blood Donation Platform (Ongoing) *2026*
React, JavaScript, SQLite, OpenRouter API

- Developed a real-time blood donation platform connecting donors, recipients, and blood banks with live stock dashboards and interactive donor mapping.
- Implemented multi-user portals, Aadhaar-based verification, gamified donor rewards, and Firebase-powered sync for cross-platform access.

Pathfinder — AI-Powered Career Guidance System | github.com/niviii-08/java-project *2026*
Java (Swing), MySQL, OpenRouter API (Mistral-7B)

- Built a Java desktop app delivering AI-driven career guidance and roadmaps for students across all Indian states.
- Integrated OpenRouter API (Mistral-7B) for chat and roadmap generation with SHA-256 + salt password hashing via JDBC.

CuteByte Cafe — EMU 8086 Backend System | github.com/niviii-08/mpmc-project *2026*
Python, Assembly (EMU 8086), Streamlit

- Built a cafe management system bridging a Python/Streamlit frontend with a 27-command EMU 8086 assembly backend.
- Engineered a Python fallback emulator with full feature parity, enabling deployment without EMU 8086 hardware.

MindCare — AI-Driven Mental Health Platform | github.com/niviii-08/MentalHealth-GDG *2026*
TypeScript, JavaScript, CSS, OpenRouter API

- Developed a full-stack web app for mood tracking and AI-powered mental health guidance.
- Integrated OpenRouter API for real-time inference, delivering a responsive, accessible user experience.

ACHIEVEMENTS & HACKATHONS

- Best Theme – Special Mention at RAC-A-THON 2025, a 24-hour national-level hackathon by Rotaract Club.
- Selected for Internship Opportunity at Codeathon 2.0, a national-level 24-hour hackathon under Thiran 2026.
- Special Mention at Tech Sprint 2025 for innovative solution design.
- Participated in Melinia 2026 and Intellina 2026 technical competitions.

CERTIFICATIONS

- Career Essentials in Generative AI – Microsoft & LinkedIn Learning (2024)
- Data Analysis Job Simulation – Deloitte | MVP to AI-Powered Apps: For Modern Web Developers – Internship Program
- UI/UX Design Workshop (NoviTech R&D), Flask Workshop (FOSS Club, CIT) & Web3 Workshop (CIT)

LEADERSHIP / ROLES

Video Editing Lead — GDG (Google Developer Groups), CIT *2025 – 2026*
Event Chairperson — Rotaract Club, CIT *2026*
